DSS offers guidelines for shelter safety, security

We are grateful for the opportunity to provide assistance during this difficult time and understand your desire to return to more comfortable and familiar surroundings as soon as possible.

During this transition period we must all do our part to provide a reasonably safe and secure shelter for ourselves and those around us.

Please refer to the following guidelines, which have been created to help us in our common effort. Thank you in advance for your cooperation.

- Whenever large numbers of people live in close quarters, **frequent hand-washing** curbs the spread of colds, flu and other illnesses.
- To help prevent pests and other hazards, please **keep your area clean and tidy**.
- Please **use privacy areas to change clothes**. Proper attire is required at all times.
- If you have any concerns about safety or security, **contact the shelter manager immediately**.
- The shelter manager is located at _____.

2-1-1: For additional assistance to help stabilize your living situation as quickly as possible, please dial 211, a toll-free United Way referral service that will connect you with more than 600 local aid organizations and agencies.
